

Re: Manufacturer's Certification Statement for IRS Tax Credit.

Englert Inc. is an Energy Star Partner. Englert metal products coated with the following paint colors are specifically and primarily designed to reduce heat gain of a dwelling unit when installed on a dwelling unit and meet or exceed Energy Star program requirements. Thus any metal roofing panel system manufactured using these Englert colors will become an Eligible Building Envelope Component qualified for the credit for non-business energy property under the Section 25C of the Internal Revenue Code:

The American Recovery and Reinvestment Tax Act of 2009 extend the residential efficiency credit for two years for 2009 and 2010. A taxpayer may claim this credit with respect to the amounts paid for an Eligible Building Component only if the following criteria are satisfied: the component is installed in or on a dwelling unit located in the United States and at the time of installation, the dwelling unit is owned and used by the taxpayer as the taxpayer's principal place of residence. **There is no credit for the year 2008.** The maximum amount of the credit allowable to a taxpayer under Section 25 is \$1,500 for both years. **This is a summary of the tax credit and it is not intended to be tax advice. We strongly recommend that you consult a tax professional for its applicability to your situation.**

Under the penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct and complete.
